In 2018 the [Commission on RE](#) proposed a new vision for RE where greater emphasis is placed on the lived experiences of people from religious and non-religious traditions and for RE classrooms to become a safe space where 'students can engage with controversial issues and learn to disagree respectfully'. At this conference we will be exploring ideas about what makes something 'true' and discussing how schools can enable pupils to become 'skilled cultural navigators'.

The National Tourist Organisations of Great Britain and Northern Ireland has confirmed that Engineer's House has followed government and industry COVID-19 guidelines, ensuring processes are in place to maintain cleanliness and aid social/physical distancing. Find more details [here](#)
